DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 11-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Haneda (US 6,459,511).

Koyama teaches a picture data printing apparatus wherein all of the claimed circuitry is either explicitly or inherently taught as evidence by the fact that the picture data printing apparatus can produce prints at arbitrary print sizes, it also includes an imaging means for imaging an object through an optical system and a display to view video data and character data generated (please note: col 17, line 44 – col 19, line 2).

Response to Arguments

3. Applicant's arguments with respect to claims 11-15 have been considered but are moot in view of the new ground(s) of rejection.
